Tutor Marked Assignment (TMA) – Design Documentation

Storyboard

When viewed at its actual size, the storyboard image depicts how the design will be displayed on a 1024px screen at the default zoom level.

Colours

The colours listed in *palette.html*, which can be found in the *colours* folder of the TMA resources, are all of the colours that are used in the design.

Fonts

All text should be displayed in Verdana, with the exception of all headings, form legends and navigation bar text which should be displayed with the embedded font file, **Bebas Neue,** which can be found in the *fonts* folder of the TMA resources.

In a standard browser, the smallest font in the design will display at 12px.
